**Dr. Theresa Deisher’s career has focused on discovering and developing new therapies for grievous human illness. Dr. Deisher obtained her Ph.D. in Molecular and Cellular Physiology from Stanford University in 1990 and has spent over 20 years in commercial biotechnology. Prior to founding AVM Biotechnology and Sound Choice Pharmaceutical Institute (SCPI) in 2008, she worked with five leading biotechnology companies. AVM Biotechnology is the marquee prolife biotech company worldwide, certifying that it does not use morally illicit material in any process. SCPI’s mission is to end human trafficking in biomedical research.**

**Dr. Deisher is an inventor on 23 issued US patents, and her discoveries have led to clinical trials of fibroblast growth factor 18 for osteoarthritis and cartilage repair, and for Factor XIII for surgical bleeding. Dr. Deisher was the first person to discover adult cardiac derived stem cells, and has been a champion of adult**
